Paperback. Book Condition: New. Paperback. 142 pages. Flavor QuestIn my first book, I encouraged you to explore your kitchens and to try new recipes to embark on your own personal food journey (quest). With this book, the same goals apply, but with a whole new set of toolstricks from my arsenal for you to experiment with at home. I intentionally set up the Flavor Quest Series so that you would have the opportunity to mix and match various recipes and dishes that work well together. Its all about the Garanimals principle for me (if you remember the old school clothing line that helped you when you were a kid and didnt know a thing about what to wear with what. It was all about matching the zebra shirt with the zebra pants for the perfect outfit. ) Think of my books as the same type of tool for the home cook, where you have dishesflavors that work well together to create the ideal meal. My books are building blocks that while they work great independently, they have much more power working together. Volume One was the foundation and Volume Two introduces more dishes into the mix which afford you brand new options to create a menu for a large gathering or a romantic dinner for two. I am really excited about this book because it has entire sections devoted to things like side dishes, sauces and even some tasty cocktails. I really love being able to share my tricks from the restaurant and catering world to you at home. It puts a smile on my face to receive feedback from those that currently have the first volume, so please continue to let me know about your personal triumphs with my books. Its what drives me to pursue my true passion...
