Force of Imagination The Sense of the Elemental John Sallis A bold and original investigation into how imagination shapes thought and feeling. This is a bold new direction for the author, one that he takes in an arresting and convincing manner.a powerful, original approach to what others call ecology but what Sallis shows to be a question of the status of the earth in philosophical thinking at this historical moment. -Edward S. Casey In this major original work, John Sallis probes the very nature of imagination and reveals how the force of imagination extends into all spheres of human life. John Sallis is Liberal Arts Professor of Philosophy at Pennsylvania State University. His previous books include Being and Logos: Reading the Platonic Dialogues; Shades-Of Painting at the Limit; Stone; Chorology: On...
